

Let's get growing!

*From the top of their head to the tips of their toes
Look and see how a young child grows.*

Pull out the flower and see how tall I was on the first day of Young Fives!

I love you!

A little piece of yarn just for you.
So you can see how much I grew.
This is special as you can see
For my teacher measured me.
This is how tall I was, on my first day of school.
It's an "I love you" present; isn't that cool?
