## February Writing Prompts

1. You're in charge of the Valentine Ball! Let me know your theme, decorations, everything from the menu to the invitations and the party games!
2. The groundhog saw his shadow! Oh no; more weeks of winter. What do you plan to do with all that "baby it's cold outside" & snuggle - up time?
3. To help celebrate 100 Day you and 10 of your friends each have 10 wishes! What 10 things do you wish for? Elaborate!
4. February is the month of love and friendship. Tell me about your best friend and why she/he is your best friend.
5. If you could receive a valentine from a famous person, who would you like to receive it from and why?
6. President's Day celebrates Abe Lincoln's and George Washington's birthdays. Which president do you like best and why?
7. A time machine just warped you back to the time of Lincoln. You are at the same play he is when he is assassinated. You are sitting next to Booth and have a chance to stop him. Do you? Tell me about it.
8. The time machine warps you along with your best friend to a southern plantation. You are both slaves and are planning on running away. Details please.
9. You are part of Washington's best soldier patrol. You've intercepted an enemy message. What does it say? Who's it from? What do you do?

## February Writing Prompts

<http://www.thinkinlikelincn.org/Summary.html>

- Is a new site with a booklet you can buy. I'm a Lincoln fan and thought the title Thinkin' Like Lincoln was one kids could latch on to and get excited about writing.
- Since there are so many correlations between Lincoln and Obama, start out by making a Venn diagram of the two.
- Get some current magazine and newspaper articles about President Obama and his family. There are also a slew of new picture books and biographies you can borrow from the library. Check out several on Lincoln and give your class 15 minutes to dive in.
- Then let them do both of these writing prompts. One is Thinkin' Like Lincoln versus Thinkin' Like Obama. The second is Thinkin' Like Lincoln versus themselves.
- After they are done, allow the students time to share their personal ones.
- Copy a picture of Lincoln, Obama's and your student's class picture's. Enlarge the head shot and let them cut them out and glue them to a paper plate.
- Have them trace their hands, cut them out and glue them to the sides holding their papers; a fun, quick and easy bulletin board. Or hang them in the hallway above or on your student's lockers. ☺

I'm sure you can think of some more that would be fun for your students. These were just a few off the top of my head.

As you can see, students will have to know a bit of the historical background of each president to compare and contrast and fill in the correct answer.

Comparing themselves with Lincoln will be a bit easier and perhaps more fun. It's a great way to learn more about your students. I think they will have fun sharing their favorite kinds of music, friends, books, political parties, cars etc. with their friends.

2. If I had 100 dollars I would buy....(Tell me what, where, and why!)

3. If I could wish for 100 of something I'd wish for....(Tell me what, and why, and what happens when these things get here!)

3. Even if I lived to be 100-years-old I'd still...

4. I like \_\_\_\_\_ so much I could eat 100 of it! (Tell me what, why, and what happens after you do, or how long it will take you etc.)

5. I'm glad they made Valentine's Day! It's important to celebrate love and friendship because...

6. If I could get a valentine from anyone living or dead I'd want to receive a valentine from \_\_\_\_\_ because...

7. Valentine's Day is my favorite holiday. What is your favorite holiday and why?

8. Hey party planner! You have \$1,000 to plan the ultimate Valentine's Day Party. ( Tell me about it. What does your invitation, decorations, dress, party favors, food, entertainment etc. look like? Who's coming? We need details start to glorious exhausting finish! ) .

9. If you had to design the most beautiful valentine in the world and money was no object, what would it look like, what would it be made of, and who would you send it to?

10. There used to be an old radio show called ***Only the Shadow Knows!*** So what's the deep dark secret? And why are you hiding it?

11. There are now 44 presidents! Who's your favorite and why?

12. You get an invitation to the inaugural ball. What will you wear? Who will be your date? How will you arrive? Who else will be going? What does the place look like? What band is playing? I want details!

13. You have just been made Queen/King of Hearts! What is your role? Where do you live? What do you wear, eat? What are your rules? Details please!

14. So the Valentine Fairy Godmother got a little crazy and she zapped everything red. Then her wand went on the fritz. Tell me about this colorful world that's now red and everything tastes like cherries and strawberries. How does everyone react to this? How are we going to get it to change back? Do we want it to? Write on rosy one...

15. Oh No! The groundhog peeked out! And he saw two shadows! His own and some other spooky creatures! But when he turned around the creature was gone and so was the groundhog! Who kidnapped the groundhog and are we doomed to live in winter forever? Tell me about it...

16. Lincoln's on the penny. So I give you one. Here...Take it. I'm giving you a penny for your thoughts. I want your thoughts on.....if you were in charge of the mint for a day whose faces would you put on the money, what size and color and denomination would the coins be and why?

### Penny Punctuation Sentences

Put the correct punctuation ( . ! ? ) at the end of each sentence.

1. How many pennies are in a nickel
2. Yay     I found a penny
3. Do you know how many pennies are in a dime
4. Wow         Look at all of that money in her piggy bank
5. I can count all 100 pennies
6. Abraham Lincoln is on the penny
7. Do you know what building is on the back of the penny
8. The penny is made partly of copper
9. I like the color of the penny
10. Did an Indian used to be on the penny

Cut Out Sliders: Insert Into Slider Penny Slits

Slits to review numbers, letters & shapes.

For the alphabet Slider Glue 2nd Strip "J" under "I" & 3rd strip "U" under "T". To Avoid accidentally pulling out Strips you can glue a longer strip of paper on the end & then simply fold the end tabs in to pull the strip out to change to another slider.

## **Penny Slider Info-Strip Slider**

### **Materials:**

- Construction paper
- Scissors
- Glue sticks (If you want to back with construction paper)

### **Directions:**

#### **Prep:**

- Run off master.
- Pre-cut slider strips
- Pre-cut slits in slider shape

#### **The next day...**

1. Children CUT out their slider shape. (You can mount it on a complimentary colored sheet of construction paper for more durability.)
2. Students WRITE their name on the BACK of their slider shape.
3. Children insert slider strip from the back to the front. Teacher decides what slider students will be working on. (ABC, 123, Shapes)
4. As a whole group, we use the manipulative to review the information on the slider.
5. I encourage the children to do it again for their parents and include a note about the slider in my newsletter.
6. I ask parents to ask their child to share their slider with them. It helps reinforce lessons, builds self-esteem, and shows their child that they care about what they are learning in school.
7. Since we have a slider for each theme, they make a nice collection. My students love collecting them.
8. Sliders are a nice quick and easy art project that nails and reviews several report card standards in a fun way. It's a great fine motor skill as well.
9. After my students are done with their slider, they clean up their work station, leave their slider at the table and transition to a Tummy Tubby Time activity. When everyone is done, they get their slider and sit on our *Circle of Friends* carpet.
10. Depending on time, we insert 1 or 2 sliders and review the material as a whole group. I'll have them put the shortest shape slider strip in, take the other sliders back to their desk, and we'll review body parts (put your slider on your elbow, knee, wrist etc.), then we'll use it for spatial directions; (put your slider on, behind, above, beside you.) We'll finish up with the *Slider Pokey* and finally "Blast Off" counting from 10-0 and then go put our sliders in our backpacks. ☺
