My Snowman's Hat Has Many SHAPES

Students can simply TRACE & Color the hat shapes in their book, or you can run off this sheet on construction paper and have them CUT & GLUE the shapes to the pages.

Have them COLOR their favorite shaped hat on the last page, then use the Graph Page to graph your students results. Run off copies if you want so each student has one. You can write their name in the grid, put an X, or cut and glue their school photo.
