## Halloween ABC Stew

### Directions:

#### Additional Idea:

- I gave you a blank stew pot so if you wanted to make your own one-page alphabet with your students' names you could.
- I do this in January when we make Stone Soup. But you could also do it here in addition to. i.e., Amy brought in an Ant, Brian brought in a Baseball etc.
- I have also provided a title page and a smaller (2-pots-on-a page) master for you. So if you want to, you can use this as a writing prompt and make a class book as well.
- I've located the pot to the left so they can write their letter on the right.
- They could also make a booklet with just the letters of their name.
- I have also made a bigger alphabet for younger students or another day. ☺
- The pot is also located to the left so they can write the letter on the right.
