Congratulations!

can successfully match numbers to  
number words.

Matching Numbers  
With  
Number Words

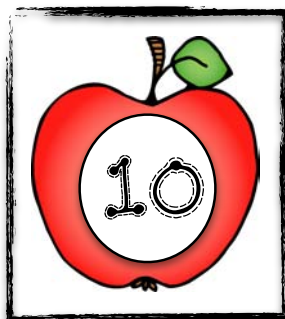

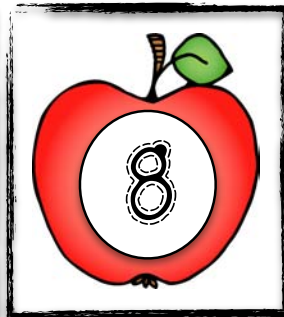

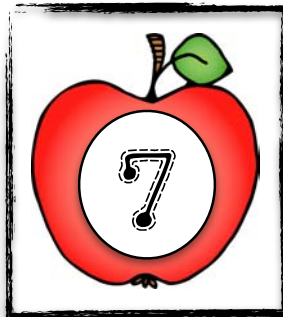

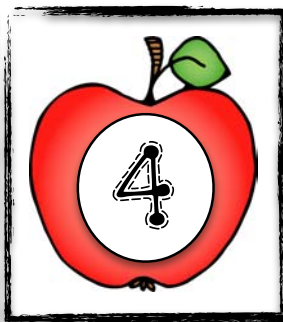

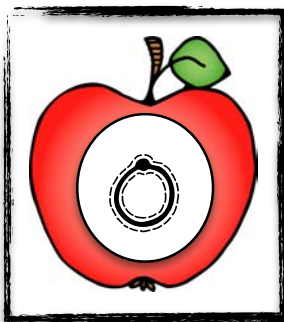

Cover the number word with the matching number.

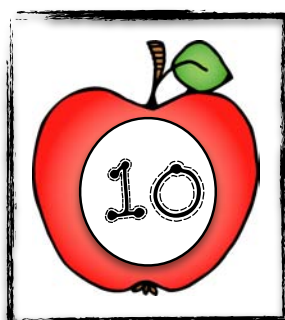

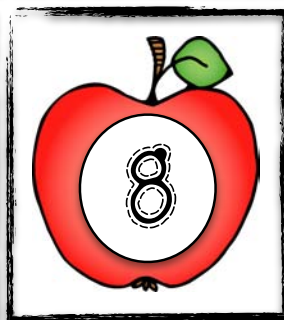

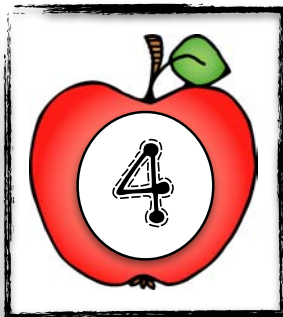

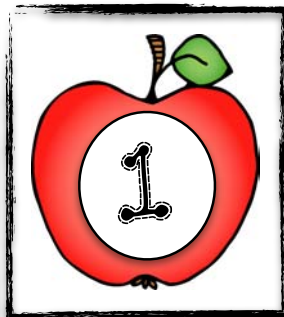

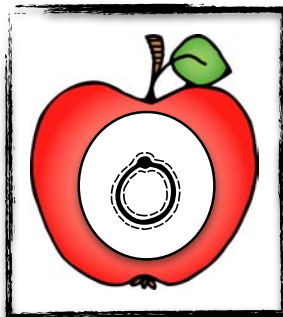

Cover the number word with the matching number.

Print, laminate and trim. Keep these number tiles in a Snack Baggie. Students cover the number word apple on the apple mat, with the matching numbered apple. To make this self-correcting, write the number word on the back of the number tile. Students can cover their mat and then flip the numbers over to make sure they are correct.
