### Directions:

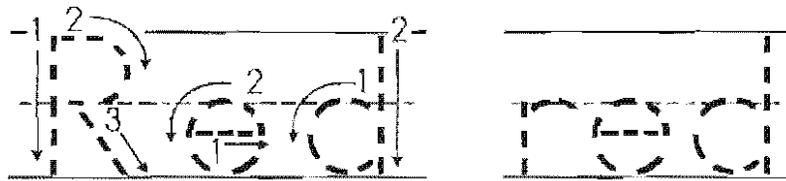

You can do this booklet as an entire booklet doing the writing portion in one sitting, and include all of the color pages, or you can break it apart and do one color a day and include the cut and glue page along with the writing page. Save the pages and then staple them in a booklet to show progress and include in a portfolio.

1. Children **TRACE** and **WRITE** the words in the appropriate **COLOR**.
2. Students **COLOR** the large puffy word in the appropriate **COLOR**.
3. For the **CUT** and **GLUE** pages, students **TRACE** the letters in the boxes and then cut them out.
4. They should **TRACE** the letters in the appropriate **COLOR**.
5. **Head's Up:** Sometimes children tend to glue words backwards as if dyslexic. That's why I've included an arrow for them so they know where to start.
6. Remind them to start where the arrow is and spell the word from left to right.
7. If your students are working on more than one page, remind them to only cut out one color word at a time.
8. Students should also **TRACE** the color word on the page where they are gluing the letters.
