## Monthly Graph Paper Shapes

### *What can I do with these Graph Paper Shapes?*

- They're FREE, my gift for you for popping in for a visit so enjoy them!
- I have my students choose 2 colors of crayons and make an ABAB pattern.
- Or choose 3 colors and color an ABC-ABC pattern.
- Use the shapes as an incentive chart and fill with stickers each day.
- A star chart for good behavior or completed work.
- A star chart for knowing word wall words or spelling words or a star for each letter or number that they know.
- Have students write letters or numbers in the squares.
- Have students use them to keep score when they play a game.
- Have students put color-patterned X's in the squares.
- Have students place small counters in the squares.
- Have students snip part way and practice their cutting skills.
- Have them go around the room and collect their friend's autograph initial.
- Have them glue their classmate's photo or other little pictures in the squares.
- Have them stamp a stamp in the squares.
- Have them bingo dot inside the squares.
- **Can you think of anything else? Let us know! Caring & Sharing; that's what this website is all about! 😊**
