March Writing Prompts

1. You've found the pot of gold at the end of the rainbow. How much gold is in it and how will you spend it?
2. You've followed the rainbow to the end and found the Lucky Leprechaun. He grants you one wish. What will you wish for and why?
3. Would you rather have March come in like a lion or a lamb and why? Or, do you like lion or lamb-like weather better and why?
4. They say St. Patrick took care of the snake problem in Ireland. Are you afraid of snakes? Tell me something you are frightened of and why.
5. What is your favorite color in the rainbow? What color of the rainbow suits your personality and why do you think that?
6. Are you Irish? What nationality are you? Tell me a bit about your heritage and where you were born. A bit 'O history about you please.
7. You're a famous Japanese kite designer. The sky's virtually the limit! What does your kite look like? What's it made out of? How high can it fly? Where do you fly it?
8. Oh no! Someone's broken into the Irish National Museum and stolen the magical shillelagh! Solve the mystery!
9. Pretend you're a leprechaun for the day. You have magical powers. What mischief will you do?

@teachwithme.com sliders

Cut Out sliders. Insert Into slider Shamrock Slits.
Slits to review numbers, letters & shapes.

For the alpha bet slider glue 2nd strip "J" under "I" & 3rd strip "U" under "T". To Avoid accidentally pulling out strips you can glue a longer strip of paper on the end & then simply fold the end tabs in to pull the strip out to change to another slider.

Shamrock Info-Strip Slider

Materials:

- Construction paper
- Scissors
- Glue sticks (If you want to back with construction paper)

Directions:

Prep:

- Run off master.
- Pre-cut slider strips
- Pre-cut slits in slider shape

The next day...

1. Children CUT out their slider shape. (You can mount it on a complimentary colored sheet of construction paper for more durability.)
2. Students WRITE their name on the BACK of their slider shape.
3. Children insert slider strip from the back to the front. Teacher decides what slider students will be working on. (ABC, 123, Shapes)
4. As a whole group, we use the manipulative to review the information on the slider.
5. I encourage the children to do it again for their parents and include a note about the slider in my newsletter.
6. I ask parents to ask their child to share their slider with them. It helps reinforce lessons, builds self-esteem, and shows their child that they care about what they are learning in school.
7. Since we have a slider for each theme, they make a nice collection. My students love collecting them.
8. Sliders are a nice quick and easy art project that nails and reviews several report card standards in a fun way. It's a great fine motor skill as well.
9. After my students are done with their slider, they clean up their work station, leave their slider at the table and transition to a Tummy Tubby Time activity. When everyone is done, they get their slider and sit on our *Circle of Friends* carpet.
10. Depending on time, we insert 1 or 2 sliders and review the material as a whole group. I'll have them put the shortest shape slider strip in, take the other sliders back to their desk, and we'll review body parts (put your slider on your elbow, knee, wrist etc.), then we'll use it for spatial directions; (put your slider on, behind, above, beside you.) We'll finish up with the *Slider Pokey* and finally "Blast Off" counting from 10-0 and then go put our sliders in our backpacks. 😊
