

Where Have All
The Sheep Gone?

Where Have All
The Sheep Gone?

There were 5 sheep.

One disappeared.

That left 4.

$$5 - 1 = 4$$

There were 5 sheep.

One disappeared.

That left 4.

$$5 - 1 = 4$$

There were 4 sheep.

One disappeared.

That left 3.

$$4 - 1 = 3$$

There were 4 sheep.

One disappeared.

That left 3.

$$4 - 1 = 3$$

There were 3 sheep.

One disappeared.

That left 2.

$$3 - 1 = 2$$

There were 3 sheep.

One disappeared.

That left 2.

$$3 - 1 = 2$$

There were 2 sheep.

One disappeared.

That left 1.

There were 2 sheep.

One disappeared.

That left 1.

There was 1 sheep.

She disappeared. That left 0.

Where have all the sheep gone?

There was 1 sheep.

She disappeared. That left 0.

Where have all the sheep gone?

Ask the lion!

Ask the lion!
