Discussion, Graphing & Writing Extensions For *Where Has My Cat Gone?*

Writing:

- Students write 5 “quick” endings of their own.
- Children share 1 or 2 of their endings with the class.

Discussion:

- Did you like the ending?
- Can you think of a better one?
- Where else could they have gone?

Math Extension:

- Teacher writes a list of the student’s ideas on the board.
- Choose three of the ideas + the book ending and **GRAPH** the favorite ending of the class.

Here are some of my new “Quick Endings”

1. They weren’t wearing their kitty licenses so they were picked up by the pound police.
2. They were cat-napped.
3. Nobody knows!
4. They went on the prowl to a Halloween Howl.
5. They went out of sight, after midnight on Halloween night!

**Did your class come up with some cute and clever ones?
Please share with us and I’ll post them on the Blog! Thanks. 😊**
