Gingerbread Pocket Head

Materials:
- Brown, peach or light pink, red, orange, yellow, green, blue, purple and black construction paper.
- Brown paint
- Brushes
- White puffy paint
- 6 inch paper plates
- scissors
- glue stick
- stapler
- Masters
- Crayons
- *Optional:* Plaid ribbon

Directions:
1. Run off masters or make templates.
2. Write children's names on the front of the plates.
3. Call them to their table seat.
4. Children paint their ½ plate. Set aside to dry.
5. Clean up paint mess and pass out paper pieces, scissors and glue sticks.
6. Children cut out arms, head & shapes. I have the eyes, nose, hearts and paper plates pre-cut.
7. When plates are dry staple them to the circle.
8. Children glue hearts to top of plate and make a smile with a red crayon.
9. Glue nose to top center of plate.
10. Glue eyes above nose on circle.
11. Glue arms together. Fold in hands.
12. For older students, you can glue "right" and "left" words to the appropriate hands. This did not work for Y5's; they were looking at the g. man and wanted to glue them that way; it was too confusing for them.
13. Glue plate to arms.
14. Write name on left hand side.
15. Staple bow under chin.
16. Children bring to you, puffy paint hair and add dots to eyes.
17. While drying, children cut out their cookie shapes and number strips.
18. Accordion fold the number strips.
19. After reviewing shapes and numbers, tuck them into your gingerbread pocket.
20. You could also chant. "Crunch Munch what cookie shape should I feed my gingerbread man for lunch?" Then feed him a shape, and identify the color.

Templates for the shapes. Print, trim and trace on an old file folder.
 Use the templates to trace on a variety of colors of construction paper.
Trace once and then cut 3-6 at a time.   This is a great way to review colors as well as shapes.

Uppercase letters	A	B	C	D	E	F
