 ...have housed eight full-sized
 ...fields.

Newspaper Letter Find

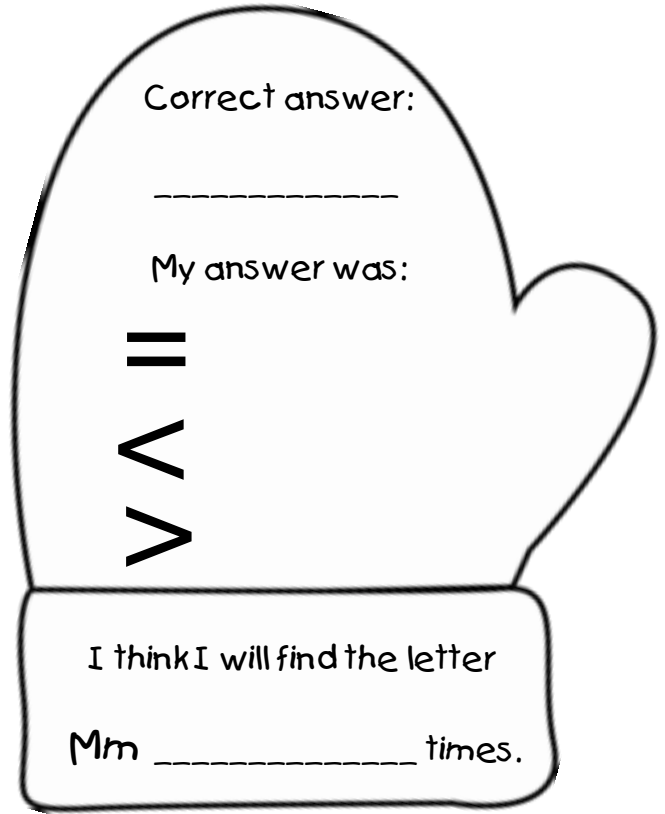

Correct answer:

My answer was:

Mm

I think I will find the letter
Mm _____ times.

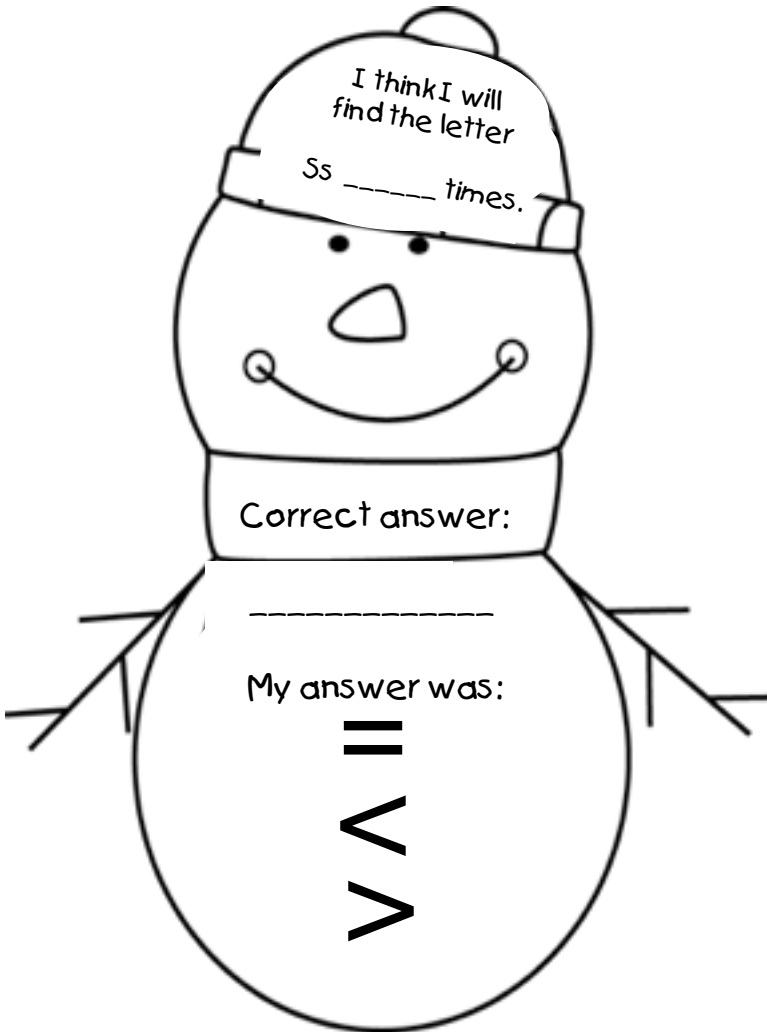

Correct answer:

My answer was:

Mm

I think I will find the letter
Mm _____ times.

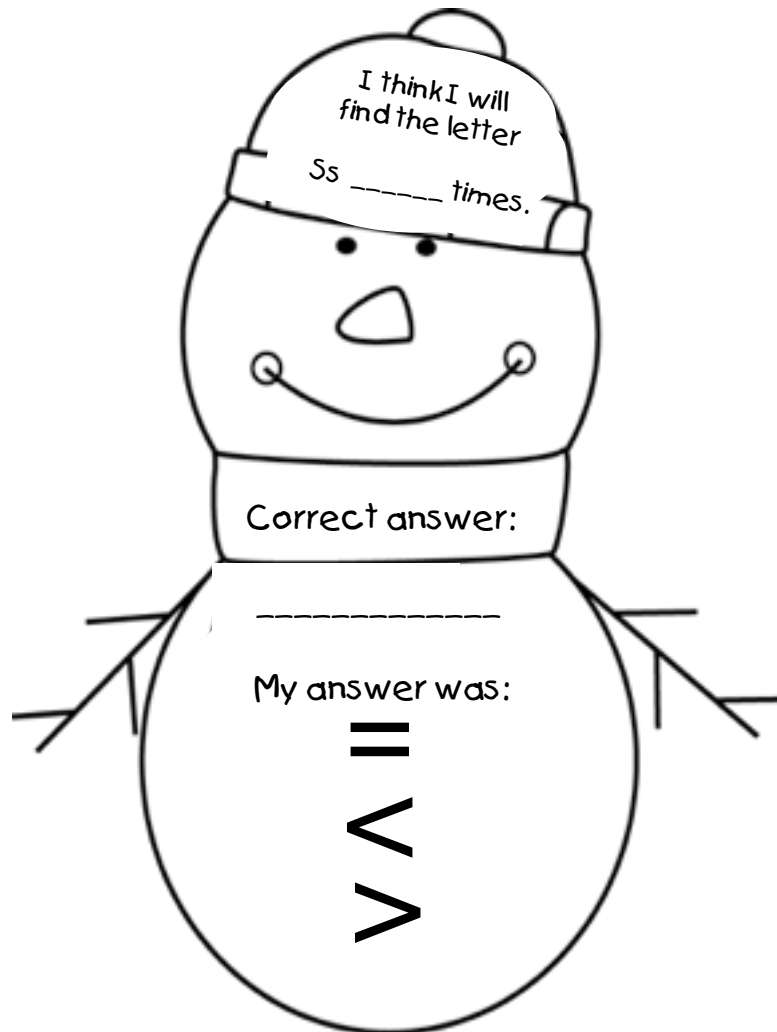

I think I will find the letter
Ss _____ times.

Correct answer:

My answer was:

Ss

I think I will find the letter
Ss _____ times.

Correct answer:

My answer was:

Ss

Newspaper Letter Find

Print the template; trim and trace on an old file folder. Cut out 8-10 templates for your students to use to trace on a wordy-section of the newspaper.

If they choose the snowman template they will look for the letter S and circle it. If they choose the mitten one, they will find the letter Mm.

Before hand, children guesstimate how many letters they will find and jot it down on their paper. Students count as they circle, coming up with a total that they write on their recording sheet. They then figure out if their answer was the same, greater than or less than their guess. For more math practice, have students calculate how much more or less they were off from the correct answer.
