Run off on a variety of colors of construction paper.

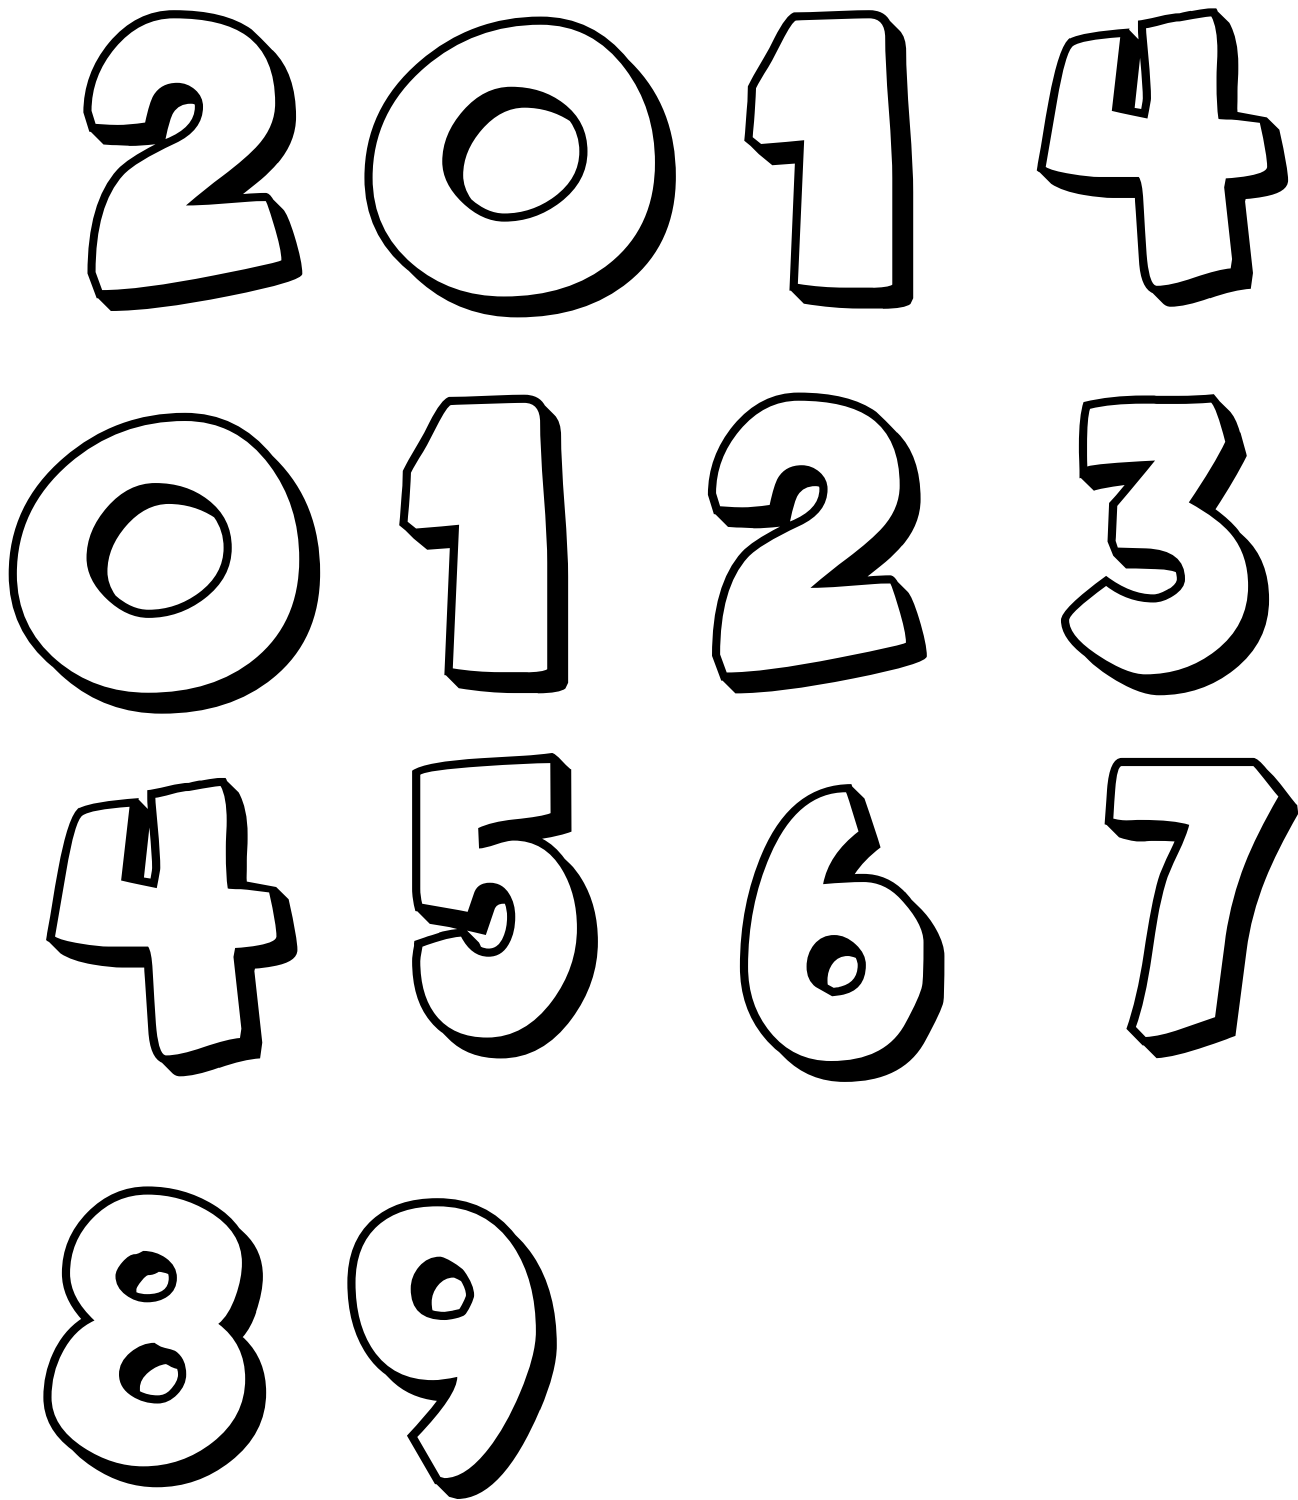

Students trim. Poke a hole in the center of the glasses to make cutting the "lenses" out easier.

Students fold their "ear" part of the frame and glue them to the inside of their "glasses."

Run the New Year numbers off on a variety of colors of construction paper.

Students trim and glue to the top of their glasses.

Children write what they see in their future for the New Year around the circle part of their glasses.

Print. Cut and glue the year together that you need.
Run off on a variety of colors of construction paper.
Students cut and glue the numbers to the top of their glasses.
