Happy 100-Day!**

Black

Print, trim and trace on an old file folder. Use your template to trace once, and then cut 3-6 at a time. I used a rainbow color pattern + pink and white. I set up our shape train in the hallway, high enough so that my students could add a shape car each day. (I had a can of Popsicle stick names to choose from. That child also wrote the number and shape name on.) We reviewed shapes and colors, as well as patterns. Students had to decide what shaped color car came next.

Trim this strip and have students glue it to the bottom of their chugging to 100 train track paper, so they will be able to fill in numbers to 100

Program with whatever.
Make name tags, use for words,
numbers, letters etc.
