

The Colors Of Fall

©TeachWithMe.com
By Diane & Daniel Henderson

Orange is for a pumpkin big and round.
Yellow is for leaves that fall to the ground.
Red is for an apple ripe for eating.
Green is for monsters that go trick or treating.
Brown is for a football, thrown down the field.
Purple is for grapes from a bountiful yield.
Blue is the sky what a wonderful sight.
Black is for cats that howl in the night.
White is the moon looking quite luminescent;
Sometimes it shines in the shape of a crescent.
Pink stripes at sunset, ending our day.
Tan is the scarecrow—the color of hay.
Gray are the shadows of geese flying by.
Kaleidoscope colors that lift our hearts high.

Spin To Win Autumn Color Game

Print; laminate; trim. Poke a hole in the center. Attach a large paperclip with a brass brad. Children choose a partner and take turns spinning. The first one to color all of the objects on their coloring page is the winner. Children need to remember the item in their booklet that was that color. i.e. If the spinner lands on the orange dot, they color the pumpkin orange; if it lands on the purple dot, they color the grapes etc. You can use the game as a tool to test comprehension, or hang up the poster to assist them.
