# Spring!

Congratulations!  
Just me peeping in to let you know that  
\_\_\_\_\_ knows their shapes.

Match Them Up  
Match the shape to the shape word.  
Use a different color for each one.  
Trace and write the word.

- oval
- rectangle
- octagon
- circle
- triangle
- hexagon
- square
- pentagon

This chick is a circle

The beak is a square that is folded to become a 3 dimensional beak.

Tape a yellow feather to the back for that finishing touch.

You can buy bags of various colored feathers at Michaels Crafts, JoAnn Fabrics and Crafts, Hobby Lobby, etc. I've even seen them at The Dollar Store.

If you want the wings to move, punch holes and attach with brass brads.

For more 3D pop, add wiggle eyes with glue dots.

For more writing practice, have students trace the shape word, as well as write it.

Children can list attributes on the back of their chick.

Students can list things they've seen in real life that are the shape of their chick. For example hexagon bolts, hexagon honeycomb etc.

I've included patterns for the rhombus and trapezoid if your students play with pattern blocks, as well as a pattern for the cube, cone and cylinder 3D shapes.

If you liked this spring resource, you may also like these as well.
